6 Light Chandelier

Orwell is an extensive assortment of industrial style fixtures. The beauty and character of the collection are in the refined details. This transitional series works well in a variety of settings. Partial shades shield the eyes from possible hot spots, while the open tops tease onlookers with a view of the sockets and bulbs. The design allows light and heat to escape from above and below the shades, providing both task and ambient lighting. Edison bulbs are recommended to complete the vintage, industrial look of the fixtures. A choice selection of finish and shade color combinations heighten the appeal of the series.
